"DON'T LET TIME STEAL YOUR DREAM" <small>*NOTE</small> Results exclude expenses if any apply. Trading directly with RYDEX, PROFUNDS, and DIREXION funds eliminates trading expenses.	\$ Although the returns are outstanding and tempting to not take profits EOD Traders is not advocating letting all of your gains remain in the market . EOD Traders does not advise on when it is time to take profits and diversify . Timing is everything !! Market returns in recent years have been substantial . Yet market conditions have differed from the past . The degree of returns depends on the market volatility and the percentage of increase or decrease in the market itself . EOD Traders knows that history always repeats itself . Don't miss the next big trend !
